Before reading another word of this book, make sure you register for one of our LIVE Workshop where we're going to reveal...

- Why this **surprisingly simple 3-step system** produces more money faster and easier than any other online business model - and how **ordinary people are using it to generate \$1,000 a day or more.**
- How by **leveraging the effort of others** you can SKIP building a website, email list, or product and go straight to **making money while you sleep.**
- The **fully automated upgrade** we're about to apply to this system so you can **earn your \$1,000/day with only a few MINUTES of work (if that).**

## **The Training Workshop takes place on Monday 29th March**

There are 5 times to choose from: 12pm, 3pm, 5pm, 7pm, 9pm ET  
(New York Time)

In the next few minutes, we're going to show you a sneak peek at how ordinary people are generating an additional \$1000/day with no product, website, or email list.

And unlike so many other online business models, they don't have to deal with China, Amazon, or all the other headaches you've probably heard about.

**It's simple, easy, and only takes 1-2 hours a day - we firmly believe anyone with an internet connection can achieve incredible success with it... in a very short amount of time.**

Most importantly, it doesn't involve any of the heavy risk, confusion, and frustration you may have experienced before.

Over the past 12 months, our most dedicated students have collectively earned a total of \$26 Million with this system...

In fact, check out the official letter one of the VP's at Clickbank sent over confirming it...

...and for many of them, they started with zero experience and simply followed the system as we teach it. They come from all different age groups, countries, and backgrounds, and many of them even speak English as a second language. No matter who you are or where you come from, we firmly believe you can succeed like they have.

**And the numbers you can achieve with this system are MIND BLOWING...**

# Robby Blanchard: My Background

If you don't know already, my name is Robby Blanchard.

When I say you don't need to have experience to be successful with this it's true...in fact, I don't even have a background in marketing at all.

I started as just a personal trainer with an Exercise Science degree!

Back in 2014 my CrossFit Gym was struggling and there were times when I literally had to choose between a good meal and paying my bills. It was so embarrassing!

It was then that I stumbled upon running ads for my gym and that's why my gym turned around and went from struggling to over 300 members and a brand new 10,000 square foot facility.

Then in 2015 I decided to create my own online information product for CrossFitters.

I tried to have affiliates email and promote it...nobody would.

I tried to create an email list myself...it took forever and didn't work.

That's why I started to run the system I'm about to show here..and things exploded!

I was finally making money online and it felt amazing!

That's when things took off for me...

## Since Then I've Become the **#1 ClickBank Affiliate** & Made Millions for Myself and My Students

Like I said, in the last 12 months alone my students have generated \$26 Million through this same system I discovered back then.

So what was the big breakthrough?

Simple: I learned how to promote other people's high converting products through Facebook ads.

Using what I learned from promoting my own product, I started to spend hundreds and then thousands of dollars a day on Facebook.

At first I didn't make much money and I even LOST money...but I didn't quit.

I knew that if I could crack the code on this then it would be my ticket to a better life.

So I kept pushing and that's when I finally had my big breakthrough.

I'll never forget the day I made my first \$1000 profit day.

\$1000 profit in 1 day....that was crazy!

At first I thought it was a fluke...but then it started to happen almost every single day...

# CAN IT REALLY BE THAT SIMPLE?

Yes, it can be and it IS that simple for me and my students!

See, most people trying to make money online go down the “standard route”...

- They pick a niche or market they want to serve.
- They create their first product and then put in an inventory order (which could be thousands of \$\$\$ up front).
- Then they start promoting it through social media, email, Instagram, Facebook, and even their own website.

There’s nothing wrong with that “standard route” except for one thing:

**It can take MONTHS if not YEARS to turn a profit.**

Just look at product creation. No matter how good an idea you have, the first version of your product is almost NEVER the version that’s ready to sell. Which means you’ll need to research, produce, sell, and get customer feedback on multiple versions of your product before you even land on the “right” one.

THEN you’ll need to repeat that same process for your marketing efforts.

**Creating a great product and selling a great product are not the same thing.**

Especially because every market behaves differently.

Some markets LOVE to buy through email. Some don’t ever open their emails.

Some markets LOVE to buy through Instagram. Some don’t even use Instagram.

And of course, every market responds to different types of messaging and images.

With so many different factors at play, it’s possible to spend months if not years of your time and thousands of dollars trying to create a successful product and marketing message.

**This is a massive problem if you’re just trying to make some extra money online.**

# The #1 reason why most people FAIL to make money online is lack of **immediate results**.

It's hard to commit to something when it takes so much time, effort and money to get anything back.

And the more you commit, the harder it is to turn back. At some point, you reach the point of no return and you CAN'T let go of your online business even when it's bleeding you dry.

By the way, did I mention you're competing with tens of thousands of other people who are all doing the same thing?

## This system allows you to skip ALL of that by **leveraging the effort of others**.

While it might blow your mind to read this, it's 100% true.

The most profitable product owners online are DESPERATE to give you money to promote their products. In fact, some of them will pay you up to 100% of the revenue per sale as commission.

### How is that possible? Two reasons:

1. The most successful product owners NEED others to promote their products in order to grow. They're already generating all the in-house sales they can and they want more. That's where you come in!
2. Because they have strong backend offers (things like upsells, membership programs, additional products, etc.) they can afford to pay you HUGE commissions on up front sales.

### These offer owners have already tested, launched, and successfully promoted their products -- **which means they've done 99% of the work for you**.

In fact, they will GIVE you all the most important materials you need to promote their products and win huge commissions.

After all, they want you to succeed. The more sales you make for them, the more money they make, so they'll happily pay you and even offer extensive support and bonus opportunities.

So now let's dive into this system to see how YOU can join the **thousands of ordinary people earning \$1,000 or more per day...**

# THE 3 STEP SYSTEM TO \$1K/DAY

## STEP 1:

### Pick the Right Product

There are a few different factors to consider here. First and most importantly: it has to be a high converting product.

Pretty obvious, right? If you pick a high converting product, it'll mostly sell itself -- which makes your role a whole lot easier.

Next, you want to look at the commission structure.

Some products owners will only pay out 50% or less. That's fine for them, but if you want maximum money in the shortest amount of time, you need BIG commissions.

That's why you want products that pay 75%, 90% or even 100% commission per sale!

As crazy as it sounds, there are product owners right now who are paying out commissions that high. In fact, some of them will even give you their own money to test out their new offers.

**I'll go into extensive detail on how to pick the right products on the Live Training Workshop, so make sure to register if you haven't already!**

### **The Training Workshop takes place on Monday 29th March**

There are 5 times to choose from: **12pm, 3pm, 5pm, 7pm, 9pm ET** (New York Time)  
*Click below to select a time and register for one of the Workshop:*

<https://JoinCHPro.com/workshop>

Once you've chosen the right product, it's time to...

## STEP 2:

# Set up Your Facebook Account to Make Sales

There's a specific way you need to set up your Facebook account in order for this to work. It's not complicated, it's just something most normal Facebook users don't know about. And quite honestly, it doesn't help to go through Facebook's official instructions. They make it sound way more complicated than they need to -- and if you stick with me, I'll make it very simple for you.

Once you have this set up, you'll be able to create Facebook ads to promote your product of choice. And with the tips and techniques I'll share with you on the Live training, you can **find countless people eager to buy** on Facebook.

Plus, when you follow Step 1 and pick the right products, you'll automatically be targeting a market that's proven to buy through Facebook. No more guessing about which platform to use because you'll KNOW Facebook is the right place to be!

Regardless of how you feel about Facebook or it's founder, there's no denying that it is a **powerful tool for making money online**.

So instead of scrolling through it mindlessly and letting it eat up your time, **why not force Facebook to work for you?**

I'll show you exactly how I use Facebook on the Live Training Lab, so make sure to register if you haven't already!

And once you have your Facebook set up...

## STEP 3:

# Use the 3-Step Persuasion Formula for Maximum Sales

Yes, I know how weird it is to have a 3-Step formula inside the 3 steps, lol

But this really is the last piece you need before it's time to rake in the sales!

And even though there are countless different programs out there that try to make this seem complicated...

There's really just a 3 step formula for writing the words on your Facebook ad.

I've used it since day one and all of my \$26 Million generating students have used it too.

**It'll psychologically force people to buy** and practically guarantee that you produce sales and earn those big commissions!

Since this is the one part of the system that requires a little extra explanation, I highly encourage you to **register for the Live Training Workshop**.

That's where I'll dive deep into the 3-Step Persuasion Formula and even give you some real-world examples of my own.

Now that you've seen how the system works, let me highlight some important benefits that make it one of a kind...

# 5 Huge Benefits

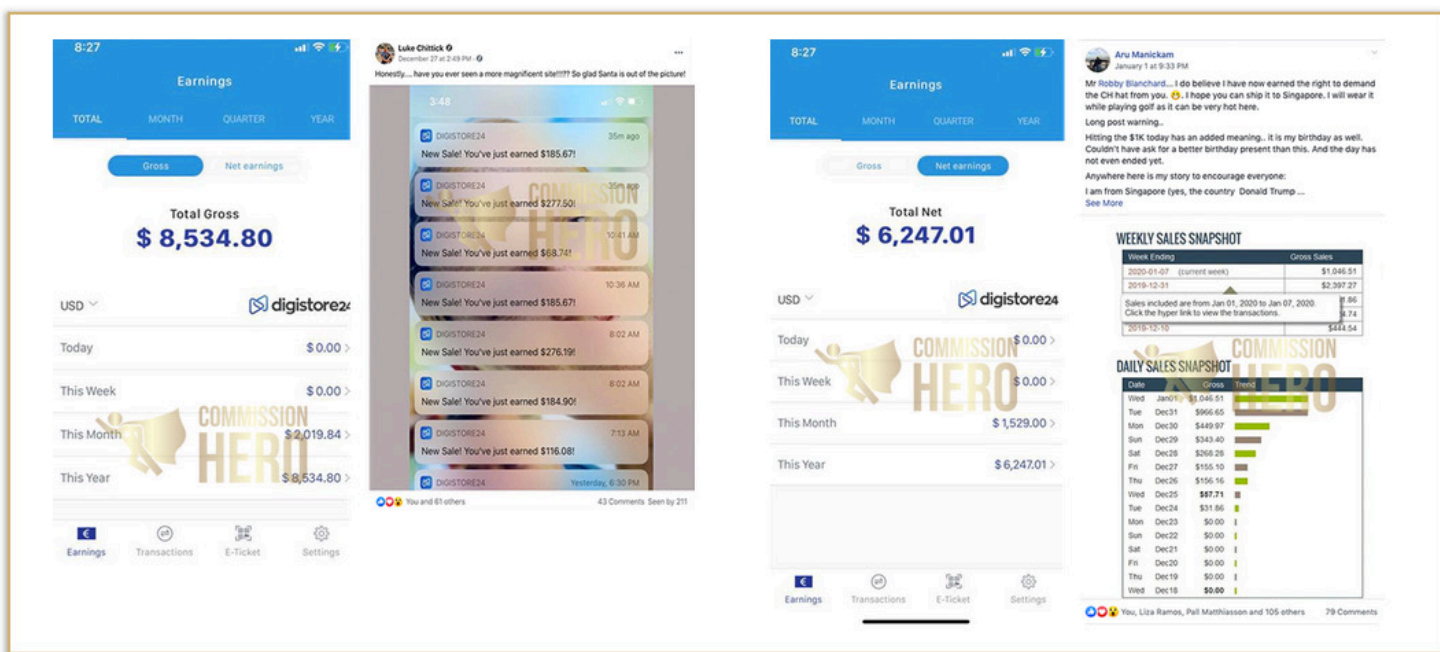

## that Set This System Apart from All Other

### #1 NO EMPLOYEES

This is one of the few models that will allow you to generate \$1,000/day with 1-2 hours of work...WITHOUT hiring anyone else.

This is important because hiring and managing others is the most expensive, unpredictable, time-consuming, and difficult part of any other business model.

With this system, you literally need just a laptop, your own fingers, and an internet connection. That's it!

### #2 RAPID RESULTS

So many other online businesses take months to set up properly before they turn a profit.

Meanwhile, some **students have hit \$1k/day within 30 days** of starting this system!

That's a HUGE difference both in terms of short term and long term success. This is a system that will give you quick wins and help build the confidence and momentum to reach true financial freedom -- and enjoy the ride along the way!

### #3 LOW TIME COMMITMENT

This system only takes 1-2 hours per day to operate. That means you can very easily “get off work” before noon each day if you do this full time. (Even if you sleep in til 10!)

On the other hand, this also means you can use this system WITH a day job, a busy family, or other time commitments.

Unlike so many other businesses that require 24 hour work days to get started, **this system seamlessly slips into your life and adds a healthy side income of \$1,000 per day!**

### #4 LOW RISK

Because you’re only working with proven, high converting offers, you practically can’t lose. You’ll know immediately when something isn’t working and it only takes a few simple tweaks to get back on track.

Is it zero risk? No, because it’s impossible to make money without taking a little risk. But it’s the closest you can possibly get to zero risk AND it gives you the power to **quickly pivot and protect yourself** from economic risks that tank most other businesses (and jobs).

### #5 INFINITE ROOM TO SCALE

I’ve used this exact same system from day one. It’s the same system that earned me my first dollar and allowed me to build an 8-figure business over time.

That’s the beauty of it: it doesn’t have a “glass ceiling” like EVERY job and even most business models have. There’s always more room to grow and growth is as simple as tweaking and optimizing the system you already have.

# You never have to reinvent the wheel -- the same system can take you from \$0 earned to 8 figures and beyond.

And if you'd like to see a real-world example of this system in action, check this out:

## With This System Alone, One Student Escaped \$50,000 in Debt

\$50,000 in debt is no joke. Most people faced with that kind of debt "contract" -- meaning they stick to a "safe" job and try to just chip away with everything they've got. This is a terrible success strategy because success is all about calculated risks. But it is understandable. So what happens when you throw the chaos of 2020 into the mix? Well, it turns out the answer is surprisingly hopeful for Coach Lee. See, he joined my coaching group and started using my system in late 2019. That's when he was \$50,000 in debt.

By December of 2019, he was already generating \$1,000 a day and picking up traction. Then 2020 hit. For most people, it meant layoffs, uncertainty, and all kinds of chaos. But for Lee? He just kept working the same system as before. So smack in the middle of 2020, he was making \$6,000 in a single day, \$30K in a week, and \$100K+ in a month. As you can probably guess, his debt is long gone. In fact, just look what he messaged Robby

Boom!!! Here's a little motivation as I have depended on so many of the inspiring success stories in here. I hit my 1st \$1k day back in late October. Then the elections happened and I couldn't compete with the political ads. Then FB went bizrk and shut down all my accounts and BM's. I kept moving forward, establishing new accounts, as well as making appeals. Mid December I relaunched but at that point I was competing with Santa Clause and couldn't make it stick. Now that St... #win Update 6/15 - \$10k day!!!

Keeping it simple, follow the system, it works! Setbacks are nothing more than stepping stones to the future you want to make for yourself!

Thank you again to Robby Blanchard, Victoria Droser, Neel Bishop, Stephanie Krohn and everyone in the group willing to lend a hand.

Of course, not all of our students got results like these right away. Some moved slower than others and some never took any action at all...which meant they could never expect results in the first place!

But the point of these numbers is to show you that **the system works when you work it**. These success stories come from people just like you who committed and took action, just like...

Hi CH family!

My name is Hoai Nguyen, from Viet Nam. I only know a little English (I have to use google translate to write this) and many other difficulties, however, today I have reached my goal of \$1000 / day with Clickbank. I'm really happy! I am also very excited about the coming days.

Ad spend: \$400  
Earned: \$1283  
Profit: \$883

Thanks you so much Robby and coach Brock Hamilton 🙏

Hello Commission Hero Family! I'd like to share my success from the month of April. I started testing the Resurge offer at the end of March and scaled up throughout April. I made over \$25,000 in profit. I'm currently setting up new creatives and copy to scale in May. Thank you [Robby Blanchard](#) and all the coaches for your support.

## **ASTONISHING!**

Now you might be wondering, after seeing all this...

# **Why not keep this a secret?**

The truth is, after all the chaos of last year, I just want to see others succeed.

I'm tired of the mainstream media forcing everyone to live in doom and gloom...because the reality is now is a time of unprecedented opportunity.

With online shopping quickly becoming the dominant way to shop...this industry is going to EXPLODE over the next 12 months and beyond!

And so the time to get started is NOW, which is why I recommend you SIGN UP ASAP for our next Live Training Workshop...

### **\* REGISTER FOR A LIVE TRAINING WORKSHOP \***

Make sure you register for one of our LIVE Training Workshop where we're going to reveal...

- Why this **surprisingly simple 3-step system** produces more money faster and easier than any other online business model - and how **ordinary people are using it to generate \$1,000 a day or more.**
- How by **leveraging the effort of others** you can SKIP building a website, email list, or product and go straight to **making money while you sleep.**
- The **fully automated upgrade** we're about to apply to this system so you can **earn your \$1,000/day with only a few MINUTES of work (if that).**

## **The Training Workshop takes place on Monday 29th March**

There are 5 times to choose from: 12pm, 3pm, 5pm, 7pm, 9pm ET

# THE #1 REASON I AM SHARING THIS WITH YOU

I used to think the only way to make money and live well was to do something you hate all day long. Like I said before, I was a personal trainer before I got into this. Personal training is a passion career -- it very rarely pays well and it attracts people like me who LOVE fitness and helping others.

**You should NEVER give up your passions, loves, or hobbies for the sake of getting rich.**

Because the truth is, you don't have to. Especially now. In fact, I believe that sacrificing what makes you happy is the WORST possible way to build wealth. It creates a relationship of resentment between you and your money...which means you'll never really feel good about having it. You don't have to be ultra smart, have any special skills, or sacrifice the things you love to build wealth. In fact, the ultimate goal is to build an online business that SUPPORTS the lifestyle you want to live.

And ultimately, that business should fade quietly into the background and **make you money on autopilot** while you do whatever you want, whenever you want, wherever you want.

**You should be looking for...**

- A true "lifestyle" business
- A business that is **satisfying, rewarding, and enjoyable...**
- A business that takes **1-2 hours MAX per day** to operate and grow.
- And most importantly: **have the option to go on "autopilot" so you can make money by simply being alive!**

This system fulfills all those needs.

And while you may be thinking "aren't there other business models that can do this too?" the answer is... **Not as easily or as quickly.**

For instance...

## Comparison: Other Online Business Models

The truth is, there are plenty of other ways to make money online. Mine may be the only system that helped my students earn \$26 Million...but still, there are other ways to succeed.

HOWEVER...

I do know this system is the **fastest and easiest way** to reach \$1,000/day with only 1-2 hours of work. Because even though the other options CAN work, they also come with a lot of hidden cost and obstacles.

For example...

### Creating a Shopify Store

Shopify is quickly becoming the leading rival to Amazon, and it's easy to see why. They've created one of the most convenient, optimized platforms for store owners and shoppers alike. There's just one problem: it's up to you to create a killer product or offer.

Sounds simple? Heck no!

Creating your own offer is one of the HARDEST ways to start a business. For most offer owners, it takes \$1,000s lost and dozens of failed attempts before they get a profitable product. In the live training, I'll show you how to skip that process entirely and just promote other people's products!

### Email Marketing

Remember the last time you typed up a work email? How did that feel? Did you LOVE having to come up with all those words?

If so, maybe you could do well with email marketing. But if you're anything like me, it probably felt like pulling teeth.

The toughest part about email marketing -- whether you promote your own products or someone else's -- is that you have to WRITE.

Everything comes down to your words, so unless you have a talent and/or passion for writing, it's going to be a painful learning curve.

In the live training, I'll show you how to pick products that mostly sell themselves -- so you don't need to be a master wordsmith to make sales!

## Drop Shipping

On the surface, drop shipping may seem attractive because of the low overhead and lack of inventory. Here's the problem: it also comes with TINY profit margins. That means you need to invest a LOT of time, effort, and money before things start to pick up.

And that's before you get into the legal headaches and supply chain issues that come with drop shipping.

If you really want a zero inventory, low overhead way to make money, you're in luck! That's EXACTLY what my system will do for you once you learn it on the live training!

## Franchising

In theory, franchising allows you to plug into a proven business model so you can jump right into the fun and profits of running your own business.

The problem is that you still have to run a business. Depending on the industry, this can be SUPER complex and frustrating. And that's assuming your franchisor gives you all the training and support you need...which most of them don't.

Don't build yourself a new job! Instead, build yourself a true lifestyle business using the system I teach on the live training!

## Freelance Copywriting/SEO/Marketing/Etc.

There is a lot of freedom and money to be found in certain freelancing roles. The catch is that these are HIGHLY skilled positions that take YEARS of training to master. That's part of why freelancers get paid so well and have so much freedom: they know they control a rare, hard to develop skill.

The good news is that my system will get you up and running in as little as 30 days! And it does NOT require any prior skills, experience, or knowledge!

## MLM, Network Marketing, Etc.

Phew...okay I have to be careful with this one. A lot of people are very protective of their MLMs. But in my experience, most MLMs play out the same way. You have a tiny group of people at the top who make money...

...while everyone below them LOSES money while paying them.

Some people say all MLMs are a scam because the model itself is a scam. That's up for you to decide. To me, the safest bet is still to use the same system my students have used to generate \$26 Million.

Which, unlike MLMs, actually lets you build YOUR business even while you promote other people's products!

Now in case you're wondering...  
The time to jump into this \$26 Million business model is not later, but NOW...

**Here's why:**

# Why 2021 is Set to Be Your Breakthrough Year

2021 is set to be the most profitable year yet for people like us.

**Why? There are a few reasons.**

## #1 The Shift to Ecommerce

Like it or not, EVERYONE had to shop online in 2020.

Even the people who were most resistant to it had no choice but to go online.

Funnily enough, those same people are still shopping online even as different regions reopen.

It's because they discovered that the convenience, savings, and variety of online shopping are just too sweet to pass up!

So here we are in an economy that has **permanently** shifted online.

Our shopping behavior has changed and it's going to stay that way.

Which means this system is going to BLOW UP in 2021 -- since it's entirely based in ecommerce!

## #2 The ONE Platform Where the Average American Spends 60 Per Day

One of the strengths of my system is that it's based on a specific platform.

And that's the one platform where the average American spends 60 minutes per day.

That's 60 minutes per American of time where WE can make a sale.

Multiply that by 331 Million Americans...and it's clear that this is an enormous opportunity.

### #3 Remote Working Means More Shopping Time

Corporate managers probably hate this, but it's true.

With more people than ever working from home, online shopping time has increased dramatically.

Which means a lot of people are probably shopping on the job!

That may be bad news for those managers, but it's great news for us.

Plus, those same people are NOT spending money on gas and NOT spending time commuting.

Which, again, means more time and money for them to use shopping for themselves.

### #4 The "Safe Option" is No Longer Safe

On the flip side, all the "safe" career options have disappeared. And there's no evidence to suggest they're coming back.

You may think this only applies to industries like Hospitality, Entertainment, Airlines, and Restaurants, but it doesn't stop there.

Here are some other MAJOR companies that had massive layoffs in 2020:

- Raytheon (Defense Industry)
- Maersk (Shipping Industry)
- Citigroup (Banking Industry)
- Ford (Auto Industry)
- Allstate (Insurance Industry)
- Goldman Sachs (Financial Industry)

**And the list goes on.**

2020 has lit the fuse on a massive, complex shift in our economy. Some of the effects are already obvious, some not so obvious.

But the one thing we know for sure E-Commerce is, like I said, rapidly growing and here to stay.

**And on the live training, I'll show you exactly how to find YOUR place in this booming industry!**

# The Autopilot Revolution (AKA What's Coming Next)

You know how I said this system only takes 1-2 hours of work per day? Well...

What if we even eliminated that? What if instead of 1-2 hours, it only took minutes of work per day to earn \$1,000 or more? As crazy as that sounds, that is the future.

Without spoiling anything, I've been working on a 2.0 version of the system my students used to generate \$26 Million. This new version is designed to automate or delegate every last thing that still requires hands-on work. It's the closest I've ever gotten to creating a "money printing machine" -- and I'm SO excited to share it with you!

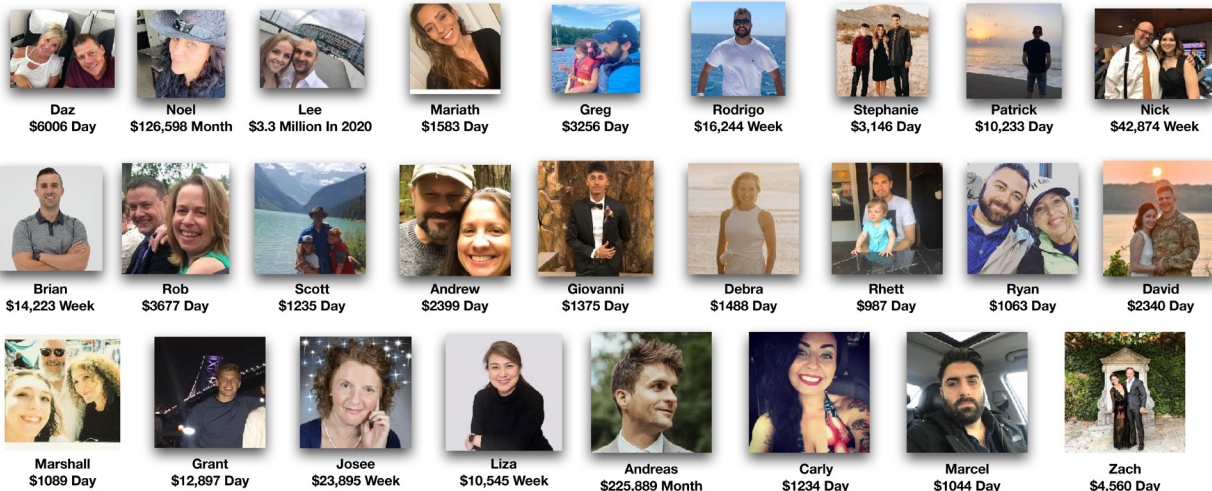

So be sure to mark your calendar and show up for the live training!

## IT'S YOUR TURN TO MAKE \$1,000 PER DAY

The only thing that separates you from the people making \$1,000 per day is the system they use and the DECISION to take action. So what will you decide?

Just look at these screenshots. Behind every one of them is someone just like you.

In 2020, My Students Collectively Made **MILLIONS** With This System...

All of them were completely new or mostly new to affiliate marketing when they started using my system.

**This is what's possible for you...but ONLY IF YOU SHOW UP!**

So if you haven't already, make sure you click the link below and register for the LIVE training where I'll show you the whole system!

**It's free to sign up, but space is limited and it's first come, first served.**
